Beside the Astronomical Department, the Almanac for this year has an interesting paper upon Meteorology. It has also an elaborate and valuable article upon Pleuro Pneumonia.

In the Second Part, it has a full list of the Executive and Judiciary of the General Government, including the chief officers and clerks of the several Departments, and the Court of Claims; of the Collectors of Customs, of Postmasters in the principal places, of Army and Navy Peneion Agents, and of the Indian Superintendents and Agents; of our Ministers and Consuls in Foreign Countries, and of Foreign Ministers and Consuls in the United States .-The titles, Commerce and Navigation, and Revenue and Expenditure, with those of the Post Office, Mint, and Public Lands, show the receipts and expenditures of the Government under their several heads, the public debt, the imports, exports, tonnage, coinage, sales of land, and the operations of the Post Office Department for eachyear, since the adoption of the Federal Constitution. Tables are given of the Fineness, Weight and Value of foreign gold and silver coins; of the Railroads in this country; of Telegraphs and Submarine Telegraphs; of Colleges and Professional Schools in the United States; of the Population of the several States at the decennial periods, including the census of 1860; of the Debts, Property and Expenses of the States; and of the Times of the State Elections, and the Meetings of the State Legislatures. The European part of the work gives the sev-

eral States in Europe, with their forms of government, the names, titles, and dates of accession of the reigning sovereigns, and the area and populations of the several countries. It also gives the Royal Family, the Ministry and Judictary of England, and the Ministry of France.

We have only given a meagre outline of some of the principle features of the American Almause for 1861. It contains a mass of informa tion which can hardly be obtained in any other work in so condensed and chesp a form.

Dr Land & Co.'s Saleratus costs you no more than any of the inferior articles which are in market. He is using a articles which are in market. He is using a new process of refining Saleratus, by which all impurities are removed. This process is in use at no other establishment in this country. The quality of the Saleratus produced by this process is very superior, and it is fast becoming very popular with intelligent housewives. De Land & Co.'s Saleratus is for sale by most grocers and storekeepers. Manufactured and for sale at wholesale, at Fairport, Monroe county, New York. The principal grocers also wholesale it.

REPORTED FOR THE STATESMAN. From Washington—The Cabinet—Address of President Lincoln to the Delegates From Massachusetts, &o , &c.

WASHINGTON, March 5 .- The floor of the Senate chamber was densely crowded to day. Before the members were called to order, the utmost anxiety was everywhere expressed to leries were about two thirds filled. The Senate met at 1 P.M. The prayer was made by the chaplain, especially in behalf of the President of the United States. On motion of Mr. Hale, a Committee of two

was appointed to wait on the President, and inform him that the Senate was ready to receive any communication he might be pleased to make. Messrs. Hale and Douglas were appointed such Committee, and immediately proceeded to

erform their duty.

The Senate here took a recess till 4:30 P. M. On the Senate again coming to order, Mr.
Hale reported that the Committee had performed their duty, and the President informed them that he would forthwith communicate in writing. After a short interview, Mr. Nicollay, the private Secretary of the President, appeared with a message, when, on motion of Mr. Hale, the Senate went into executive session at half

The following gentlemen were confirmed as numbers of Mr. Lincoln's Cabinet:
Hon. William H. Szward, Secretary of State. HON. SALMON P. CHASE, Secretary of the Treas-Hon, Simon Cameron, Secretary of War.

HON. GIDEON WELLES, Secretary of the Navy. HON. MONTGOMERY BLAIR, Post Master Gen-HON. CALEB B. SMITH, Secretary of the Inte Hon. EDWARD BATES, Attorney General.

The votes were unanimous for all except Bates and Blair, four or five votes being east against each of these gentlemen-that many objecting to them because they were unwilling that any one from the Slave States should go into the Cabinet. A large crowd assembled around the doors.

nxious to hear the result of the session. Several State delegations this morning. different times, paid their respects to President Lincoln; prominent among them were those from Pennsylvania and Massachusetts. The latter, as did the former, assembled in the east room when Mr. Lincoln making his appearance, Mr. Hanscom introduced Hon. Charles R. Train, who, in briefly addressing Mr. Lincoln, said :— Massachusetts had read his Inaugural, and would stand by it, and that from none would it meet with a more cordial support than the Old Bay State.
Mr. Lincoln replying, said substantially: I am thankful for this renewed assurance of kind

feeling and confidence and support of the Old Bay State, in so far as you, Mr. Chairman, have expressed, in behalf of those you represent, your expressed, in behalf of those you represent, your sanction of what I have enunciated in my Inaugural. This is very grateful to my feelings. The object was one of great delicacy, in presenting my views at the opening of an administration under the peculiar circumstances attending my entrance upon the official duties.

Connected with the Government, I studied all the points with great anyloty and recently the content of the

the points with great anxiety, and presented them with whatever of ability and sense of justice I could bring to hear. If it meet the approbation of our good friends in Massachusetts, I shall be exceedingly gratified, while I hope it will meet the approbation of our friends everywhere. I am thankful for the expressions of those who have voted with us, and like every other man of you, I like them certainly as I do others Langhter.)
As President, in the administration of the

Government, I hope to be man enough not to know one citizen of the United States from the other, (cries of "good!") nor one section from the other. I shall be gratified to have the good friends of Massachusetts, and others who have thus far supported me in these material views, still support me in carrying them out.

Mr. Lincoln excused himself from further

remarks, on account of pressing business, and therefore retired without further ceremonies than a farowell. Gen. Scott and Secretary Holt were also vis-

Gen. Scott made a brief patriotic and friendly speech.
Mr. Holt expressed himself honored by the visit, and his regret that the brief time he had occupied the War Department had not enabled

him to do more for the country.

Major Anderson up to the 4th of March has continued to speak of his condition as safe, and o express his opinion that a reinforcement had better not be sent to him. The point of difference between the two

Houses on the bill reorganizing the Patent Of-fice, was in reference to the extension of pateuts. The House had amended it, providing that no patent should be re-issued when the Commissioner was satisfied that both the inventor and assignee had netted \$100,000. The Senate amended the bill by confining that amount of profit to the inventor alone. The committee 2 of conference consisted of Messrs. Douglas, Cameron and Fitch, of the Senate, and Cox and Barr, of the House, who adopted, in place of what is above stated, the following: "All patents hereafter granted shall emain in force seventeen years from the date of issue, and are extensions of such patents in hereby prohibited." The bill was thus passed It stops all the corruption and intrigues as to present patents in Congress, and all patents granted after this passage cannot be renewed at he Patent Office.

Ex-President Buchanan departed on his journey to Wheatland this P. M. He was escorted to the railroad depot by two mounted and two infantry companies, together with the commit-tee from that locality, and prominent citizens of Washington. He exchanged many farewell hand-shakings, and appeared to be deeply af-fected by the manifestations of friendship; and when he bowed adieu to the large crowds as the rain was about to start, they further testified

their respect by vigorous obcers.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous comstitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. their children." are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ENYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMOES, TETTER and SALT RHEUM, SCAID HEAD, RINGWOIM, RUPTIVE THE ACCOUNTAGE OF THE PROPERTY OF THE PR RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITEA-TID OR INTURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

AYER'S Ague Cure.

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headsche, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of FRVEN. AND AGUE from the system, and pravents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapent. The large quantity we supply for a dollar brings it within the reach of every body; and in billous districts, where FEVER AND AGUE prevails, every body should FEVER AND AQUE prevails, every body should have it and use it freely both for cure and received have it and use it freely both for cure and protec-tion. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitu-tion. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of

Pever and Ague is not alone the consequence of the miasmatic poison. A great variety of disor-ders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headachs, Blind-ness, Toothache, Earache, Catarrh, Asthma, Pai-nitation, Painful Affection of the Spleen, Hyster-ics, Pain in the Bowels, Colic, Paralysis and De-rangement of the Stomach, all of which, when rangement of the Stomach, all of which, when originating in this cause, put on the infermittent type, or become periodical. This "Cura" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection residing in the malarious districts. If taken occasionally or daily while exposed to the infection that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affects. this remedy affords.
